SPRING | SUMMER 2019 **ISSUE 14**

bathrooms *to love*

brought to you exclusively by our bathroom specialists

Stylish and practical

Ensure the morning routine runs smoothly with everything in its place and easy to find. It's easy to maintain a sense of order and maximise limited space with clever design and innovative storage furniture.

Bathrooms have *evolved!*

After the living room and kitchen, your bathroom is the most visited room by guests to your home. Over time, more and more attention has been given to bathroom design, and today, the creative solutions and choices available for furniture, sanitaryware, taps, showering and accessories, makes designing your perfect bathroom achievable and a real labour of love!

Get inspired

Achieve your own look with the perfect style combination. With some simple choices and a little imagination, stepping into your bathroom can feel like stepping into another world.

Personalise your space

By thinking about the details you can enhance the whole look of your bathroom. Add your own personal style with your choice of wall art, seating, fixtures and fittings.

Create a spa-like feel

Your bathroom is a sanctuary, a place to rest and rejuvenate. With clever lighting you can create an ambience of peaceful calm – put your favourite music on, light a scented candle, add a splash of luxury bubble bath and relax!

Clever bathroom storage can make your bathroom the cleanest, tidiest room in the house, keeping your everyday essentials at your fingertips.

Brought to you exclusively by our
FURNITURE SPECIALISTS

Redefining *furniture*

Bathroom furniture provides all the benefits of useful storage as well as a great way to design and style your bathroom. Whether it's fully fitted, wall mounted or floor standing, we have really attractive ranges for you to choose from.

Colour & texture trends

There is a trend for grey bathrooms which are very stylish. Combine our Grey Perla units with neutral tones to create a luxurious 'spa' environment.

Two-tone furniture trend

Two-tone cabinetry is a key design trend and a way to embrace warmth and colour in a room. The two-tone look can work with any design style, marrying both modern and traditional looks.

A lighter touch

It's now much easier to create a soft ambience for a more relaxing bathing experience with integrated furniture lighting and a variety of wall or ceiling lights for everyday use.

the *furniture* collection

For the latest look in bathroom design

Our furniture ranges are arranged in groups, based on whether they are modular or fully fitted, to make it easy for you to find the perfect solution for your bathroom.

Modular

New **Lambra** *(page 10)*
Modern curved doors and drawers with an integrated handle, giving a minimalist chic look.

Senzo *(page 16)*
Luxury two-tone furniture with sleek chamfered edge door opening.

Perla *(page 20)*
Sophisticated 'framed' style design with luxury feel push-to-open inset doors.

Serena *(page 26)*
Clean lines and neutral tones on a slab door with a modern chrome handle.

Carino *(page 32)*
Fully handleless doors on smaller units, for a 'step-style' layout of sleek beauty.

Volta *(page 38)*
A stylish slab door & sleek metal bar handle; great option for smaller budgets.

Lucia *(page 44) - Traditional*
Fine crafted transitional style furniture; a classic style with a modern twist, ideal for any bathroom.

Fitted

Valesso *(page 50)*
Luxury handleless furniture with multiple storage and size options.

Alba *(page 58)*
Maximum space utilisation with beautiful slab doors and a modern handle included.

New **Benita** *(page 66) - Traditional*
A more classic look with shaker doors and a traditional beehive handle.

Complementing Ceramics *(page 74)*
Finish your furniture with our complete range of complementing ceramics.

Elemi Washbowl

Angelica Washbowl

Bergamot Washbowl

"Our suites are sourced as much for their design aesthetic as their practicality, giving you a highly attractive look for your new bathroom."

Brought to you exclusively by our

SUITES SPECIALISTS

Style setting *Suites*

The shape of your suite sets the style for the rest of your bathroom, so it's important to consider what look & feel you want overall when choosing. We have sizes to suit large bathrooms or small cloakrooms and shapes that match all the popular styles.

Find your ideal washbowl design

We have a range of washbowl designs that will make a great style statement, whether you choose one with strong angular lines, or with soft edges, or in a contemporary design or a more classic look.

Why not go rimless?

Currently a growing trend, rimless toilets offer a seamless sleek look and benefit from being more hygienic than a rim.

Creating a sense of space

Wall mounted WCs are increasingly popular, as they not only provide a stylish design option, but also create the illusion of extra space, ideal for smaller rooms. Easy access all around the pan also makes them very easy to clean.

the *Suites* collection

Stylish suites, all with a Lifetime Guarantee

Our suite collection has something for every taste, from the popular Contemporary designs, to the traditional Classic styles.
All our suites undergo a comprehensive Quality Assurance testing process to ensure your suite will last as long as you want it to, all backed by our Lifetime Guarantee.

CLOSE COUPLED OPEN BACK WC *(Left Image)*

How to choose the *right suite options for you*

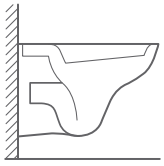

Close Coupled WC

A close coupled WC has the cistern resting directly on top of the pan towards the rear.

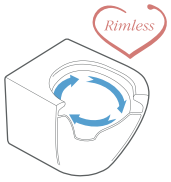

Back to Wall WC

A back to wall WC has the concealed cistern hidden behind a wall or fitted furniture.

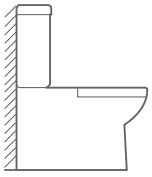

Wall Hung WC

The pan is held off the ground by a hidden supporting frame and, as with a back to wall WC, the cistern is hidden.

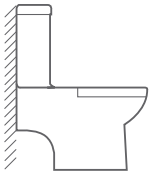

Rimless WC

Rimless WCs are easier to clean as they flush without needing a rim.

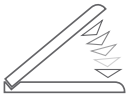

Fully Shrouded

The waste pipe and water inlet are fully shrouded within the ceramic, the toilet sits flush against the wall.

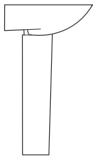

Open Back

Open back toilets have access at the back for your pipework, perfect if you are planning to box in the pipes from left or right.

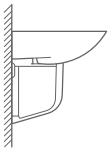

Soft Close Seat

The soft close function ensures that the seat and lid close slowly without banging against the pan, reducing noise and risk of damage.

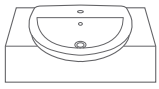

Full Pedestal

The most popular choice, a full pedestal hides all the pipework whilst supporting the basin.

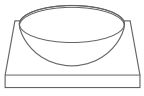

Semi Pedestal

Increasingly popular, a semi pedestal sits under the basin and hangs from the wall, freeing up floor space below it.

Semi Recessed Basin

Designed to be mounted into a work surface or furniture, the front of the basin protrudes forward, whilst the rear part is recessed.

Countertop Wash Bowl

Designed to sit on top of a work surface or furniture unit.

Comfort Pans

Set at a 450mm height or more, Comfort Pans provide added comfort, especially for taller people or the elderly.

WRAS Approved Product
All of our cistern fittings are WRAS approved ensuring they comply with the latest water regulations.

Get the look

Tilia basin with full pedestal, Tilia close coupled rimless WC with soft close seat, RefleXion 8 wetroom panel, Lexi shower, Rima basin mixer, Galatea mirror and Cylindra radiator.

"If you have the space, nothing shouts style quite like a freestanding bath as a centrepiece to your bathroom."

Brought to you exclusively by our
BATH SPECIALISTS

Beautiful *Baths*

There has never before been so much choice and versatility with baths, and you no longer have to choose between practicality or style, as now, with our latest range, it's so easy to have both!

Monochrome style

As an alternative to the mainstay white bath, the current trend is for a black and white contrast, which make a bold design statement. Also see our complementary black tap and radiator.

Best of both worlds

If you have limited space our attractive shower baths, combined with a bath screen, give you a great alternative to a separate shower enclosure.

Affordable luxury

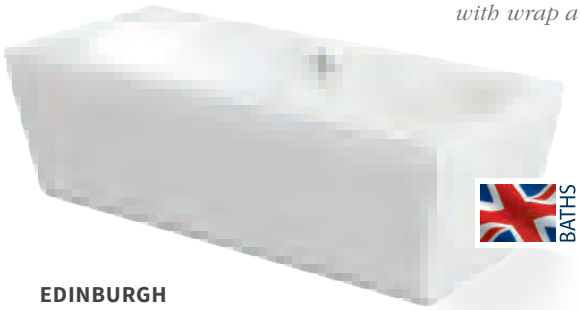

Most people dream of having a luxurious freestanding bath in their bathroom. Our new affordable range now makes that dream possible.

Freestanding baths

Our collection of Freestanding Baths offers a wealth of styles and sizes to choose from. Whether your taste is traditional or more modern, we have the Freestanding Bath to create something a little more special enabling you to create the bathroom of your dreams.

Escape, indulge and relax with wellness

Why Wellness?

Why not? Wellness Bathing Systems turn your boring bathroom into a sensual spa. An ideal way to relax after a busy day, before a party or just to escape when the kids are in bed - Wellness Bathing Systems allow you to indulge in a luxury experience without even leaving the house. And they're packed with health benefits too, so you can splash out on the system of your choice without feeling guilty. Which is perfect. With a dedicated aftercare service you can be assured of total peace of mind.

And... It's good for you!

Wellness Systems make you feel good from the inside out. In fact, taking some time to kick back in a bath fitted with a Wellness system could help reduce the effects of stress, counteract tension, improve circulation and reduce the heart rate. It also helps remove toxins, cleanses and tones the skin, and relieves tired, aching muscles. Take it from us, once you've tried Wellness, you'll never go back!

2 year
GUARANTEE
On Wellness Systems

Wellness Systems

WELLNESS 6 JET WHIRLPOOL SYSTEM

Features:
- 6 chrome effect variable jets
- Chrome effect dual controls
- Includes pre-fitted waste and overflow

This system cannot be used on baths with wood panels.
Jets feed water into the bath as pressure creating a range of massages from relaxing to sports hydro-massage.

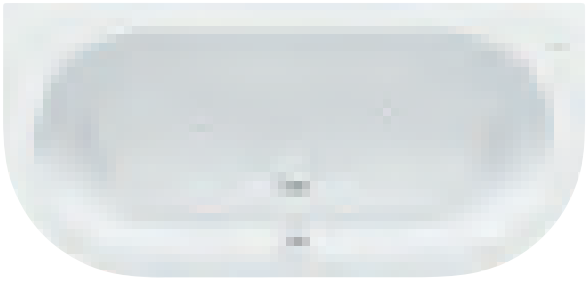

WELLNESS 8 JET WHIRLPOOL SYSTEM WITH MULTI-COLOURED LIGHT

Features:
- 8 chrome effect variable jets
- Single LED colour changing light
- 7 soothing colours to choose from
- Includes pre-fitted waste and overflow

This system cannot be used on baths with wood panels.
Jets feed water into the bath as pressure creating a range of massages from relaxing to sports hydro-massage.

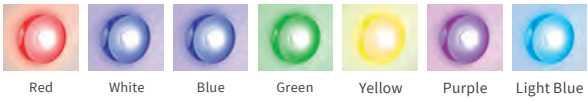

WELLNESS 12 JET AIR SPA

Features:
- 12 air jets positioned in base
- Ultra quiet blower
- Includes pre-fitted waste and overflow

Air bubbles are released into the water producing a gentle, calming, massaging fizz.

WELLNESS 12 JET AIR SPA WITH MULTI-COLOURED LIGHT

Features:
- 12 air jets positioned in base
- Single LED colour change light
- 7 soothing colours to choose from
- Ultra quiet blower
- Includes pre-fitted waste and overflow

Air bubbles are released into the water producing a gentle, calming, massaging fizz.

WELLNESS CHROMATHERAPY SYSTEM

The chromatherapy system we offer comes with 7 colours: white, blue, red, light blue, yellow, green and purple. They can be set at a constant colour to match your mood or set to run through a carefully pre-selected sequence for emotional balance.

The Chromatherapy whirlpool system includes 21 chrome fixed and directional jets:
- 8 base jets
- 5 whirlpool side jets
- 6 back jets
- 2 reflexology foot jets
- Includes pre-fitted waste and overflow

A directional flow valve allows you to isolate various jets to help relaxation and focus in on certain problematic areas of the body.

1.5hp pump with a flow rate 305 litres per minute.
This system cannot be used on baths with wood panels.

Supercast® Baths

What is Supercast®? Strength and beauty combined

Supercast® is a substantial reinforcement process for an acrylic bath.

This reinforcement process results in each bath being incredibly strong and hard-wearing. This gives you the reminiscent assurance of an old cast iron bath with the natural warmth and quality acrylic has.

Acrylic's unique properties make it ideal for manufacturing baths. Acrylic allows itself to be moulded into many shapes giving many possibilities for varied designs, an attribute that enables baths to be manufactured with design and function working in harmony. The natural gloss is cast all the way through the acrylic resulting in a product that is smooth and ever so easy to clean.

The intensive reinforcement processes and final (green) 'flow coat' jacket to the entire underside of the bath adds strength and insulating properties. This keeps your bath water hotter for longer!

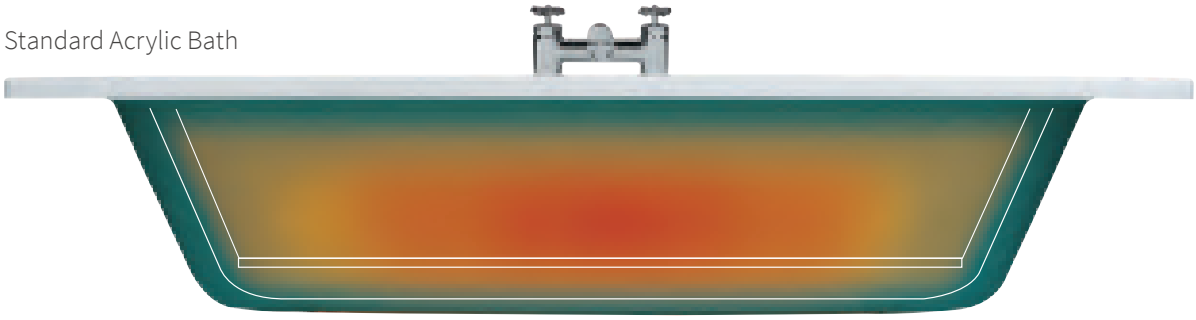

Features:

- Intensive reinforced finish to underside of acrylic bath
- Results in a strong, hard-wearing bath, with increased insulation
- Supercast® baths have associated strength of an old cast iron bath but with the benefits of modern material

"Our bathrooms increasingly become spaces where design and style are as important as function and practicality. Our enclosures are made from high quality materials and components and designed with beauty in mind."

Brought to you exclusively by our

ENCLOSURE SPECIALISTS

Step into our *Enclosures*

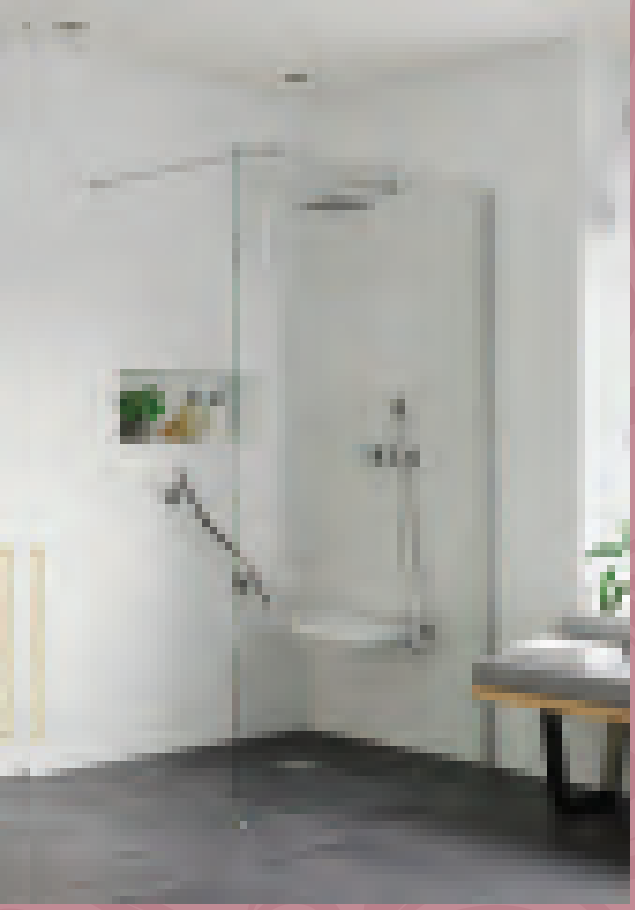

Shower enclosures now feature in most new bathrooms and have developed to become a main part of defining the overall style of the bathroom. With a wide range of shapes and sizes on offer, your new bathroom design will be greatly enhanced with an enclosure.

Wetroom panels still a strong trend

Wetrooms continue to be on-trend with their minimalist style and to give that spa-like feel. But it's also their suitability for accessible bathrooms that gives them a great dual benefit. Slim trays give a wet room look as a low cost alternative.

Easy clean for an easier life

All our enclosures have easy clean glass which helps repel water and prevent build up of dirt and grime, making the ongoing cleaning of your enclosure much quicker and easier.

Enclosures to fit your space

Choose an enclosure shape that suits your space and preference... for example, a quadrant will sit neatly in a corner, and a bi-fold door opens without encroaching into the room (great for smaller spaces!)

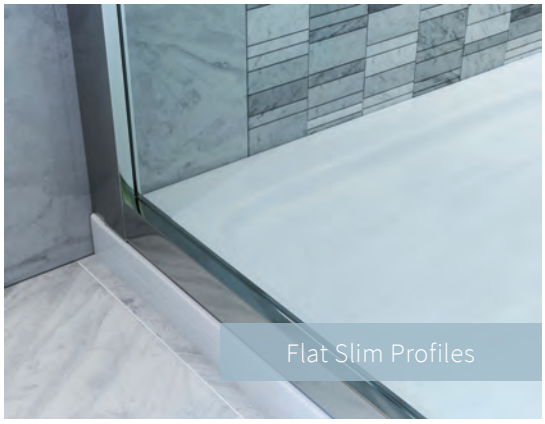

REFLEXION

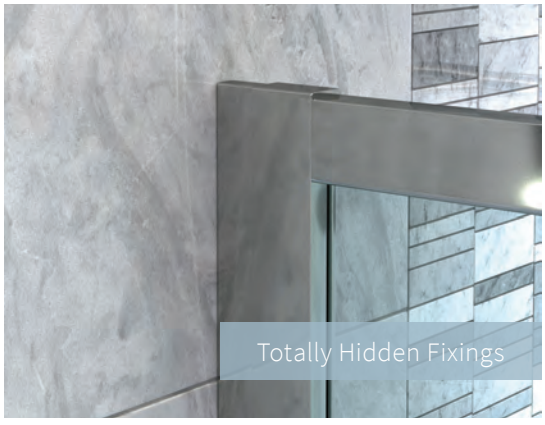

SHOWER ENCLOSURES

Quick Release Rollers

Easy Clean Glass

time for *RefleXion*

Our shower experience is personal to us.

For some of us it is that little piece of paradise each day. For others it is much more functional.

Whatever your shower means to you our REFLEXION range has been designed to provide the experience that feels right for you.

Designed for beauty

As our bathrooms increasingly become spaces where design and style are as important to us as function and practicality, our REFLEXION enclosures will add a touch of beauty to any bathroom.

Safe and strong as standard

All REFLEXION enclosures are made from high quality materials and components to give you the ideal, personalised shower experience for years to come.

Designed to complement your personal style

Whether you are doing a complete bathroom refit, creating a new en-suite or updating an existing bathroom, our enclosures are completely versatile in their appearance, shape and size.

MERLYN SHOWERING

How it works

As you can see from the diagrams on the left there are many combinations that can be made.

If you wanted to make up a walk-in wetroom for an area to fit on to a 1200 x 800mm tray or floor. You pick a 700mm and a 800mm panel, which also includes the recommended 500mm minimum opening for the walk-in. So in order to build up your own ideal wetroom area just choose the panel sizes from the table below.

20 year **GUARANTEE**

FEATURES

- *Height: 2015mm (including rail)*
- *8mm toughened safety glass*
- *Easy clean glass coating*
- *Suitable for both wetroom floors and on shower trays*
- *Comes with 1 metre stabilising bar which can be cut to fit your space*

* Vertical pole can be bought separately and retro fitted to glass thickness of 6mm, 8mm and 10mm and can be cut to fit suitable height.

Designer Ultraslim trays

REFLEXION SHOWER ENCLOSURES

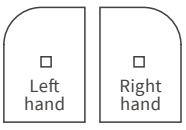

TRAYS MADE IN THE UK

The 25mm high 100% natural stone gel coat finish tray with a flush fitting waste cover offers an ultra stylish minimal wetroom look.

- Handmade in the UK
- 25mm high, 100% natural stone resin
- Styling from a contemporary wetroom
- Tested flow rate of over 33 litres per minute
- Advanced design features incorporating hidden water capture and virtual flat surface technology
- Genuine wet room alternative without the associated costs and fitting challenges
- Fully complies with EN274 European standard for shower flow rates
- Flush fitting with floor tile for level threshold entry
- Dedicated high flow, self-cleaning vortex waste unit
- Unique 135 x 135mm stainless steel flush fitting waste grid
- Simple and standard shower tray fitment
- Lifetime guarantee against manufacturing defects
- Suitable for wheelchair access

"A good shower can provide that extra feeling of daily luxury, so why not go for the best shower you can get for your budget"

Brought to you exclusively by our
SHOWERS SPECIALISTS

Step into our *Showers*

Research shows that the majority of us prefer showering to bathing, and the choices now available are truly impressive. Whatever your preference, whether it's a sleek concealed mixer, a luxurious shower tower with body jets, or an easy-fit electric, our carefully selected range has something for everyone.

Easy to operate

Our latest collection of mixer showers includes a super easy push button style, so you can now enjoy a luxurious high pressure shower literally at the push of a button.

Go electric

Still a popular choice are electric showers. Design and technologies have evolved to provide a more powerful shower whilst being economical to run.

The ultimate home spa experience

Our lavish large rain shower heads with body jets help you affordably recreate that spa experience in your own home.

Mixer showers

These connect to the hot and cold water supplies and then mix the water inside the shower to your selected temperature. Mixer showers normally deliver a higher flow rate than electric showers and are often thermostatic to protect against scalding. Ideal for homes with readily available hot water. You can also add a pump if required to boost the flow from a gravity fed system.

SQUARE COOL-TOUCH THERMOSTATIC BAR MIXER

Mixer showers

TMV2 and TMV3 Thermostatic valves

TMV2 thermostatic mixing valves protect against scalding. The thermally sensitive mechanism within the valve mixes hot and cold water to a preset temperature. The mechanism automatically compensates for any variations in pressure or temperature to maintain a safe temperature. TMV2 valves are also WRAS approved. TMV3 thermostatic mixing valves have all the benefits as TMV2 and are also certified for use in the high risk health care sectore.

DENE THERMOSTATIC
BAR MIXER WITH DIVERTER
DICM0262 **£312**

- Diverts between fixed showerhead and handset

- 1.5 anti-twist, extended length, chrome hose

All of our mixer showers come with a 5 year parts and labour guarantee.

Electric showers

2 year GUARANTEE on all parts and labour

These connect to the cold water mains supply.
A heating element inside the unit heats up the water as it passes through.
It doesn't rely on stored water and provides instant hot water on demand.

Amore

Sleek, elegant and ultra-easy to use. Clever digital touch controls plus a choice of smart finishes create a superb focal point for your bathroom.

- Crisp white digital display with temperature readout
- Sleek contemporary cover
- Touch activated power selector, on/off button and temperature control dial
- Riser kit with large 110mm 5 mode handset and soap dish
- Stabilised temperature control for peace of mind
- 7 entry points for easy fitting

Aspirante

Three stunning finishes, natural, yet original
From the polished style of Black Gloss and White Gloss to the natural beauty of Brushed Steel, Aspirante has a finish that complements any bathroom. And with such innovative finish effects never having been seen on an electric shower before you can be sure you're giving your room a truly original look and feel.

Use it once. Know how it works
No need to memorise obscure settings and indicators. Aspirante works as beautifully as it looks. One central control does everything you need – from switching on the shower to a perfectly delayed shutdown sequence. If only everything in life was so easy.

Everything you need
Every Aspirante shower comes complete with a full shower kit: riser rail, adjustable showerhead holder, soap dish, shower hose, and a 5 mode rub clean showerhead. All you need is within the box.

Site with ease
Thanks to its discreet design, including more compact overall dimensions, Aspirante sits comfortably within any bathroom. That means you're free to design your interior with confidence.

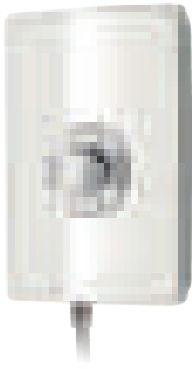

A dream to clean
Each Aspirante shower comes with a rub-clean chrome-plated showerhead with 5 spray patterns. Along with an easy-to-clean face, keeping your shower in tip-top condition only takes a couple of wipes.

8.5kW and 9.5kW models available

A breeze to install
A swivel water inlet connection means that Aspirante is compatible with both left or right pipe entry positions. This means that you, or your installer, will find fitting a breeze.

ASPIRANTE BLACK GLOSS

COLD MAINS SUITABLE

2 year GUARANTEE

Power showers

These work in the same way as a mixer shower, they connect to the hot and cold water supplies and then mix the water inside the shower. They also have the added benefit of an integral pump to boost the flow rate giving a powerful flow.

AS2000XT
THERMOSTATIC POWER SHOWER
WHITE/CHROME
DICM0086 **£526**

- Adjustable Maximum Temperature Stop
- Maximum flow rate of up to 14 litres per minute
- Push button start stop
- Thermostatic temperature control
- Automatic shutdown
- 5 mode rub clean showerhead

LOW PRESSURE SYSTEM

1 year GUARANTEE

Low pressure?

With Triton's booster pump you can get the power performance you demand from your shower, turn any mixer into a power shower or simply boost your low pressure flow rate.

T550I PUMP
DICA0012 **£406**

The T550i is the unit to opt for if you want to convert a mixer shower into a high flow rate 1.2 bar shower.

LOW PRESSURE SYSTEM

1 year GUARANTEE

Our power shower comes with a 1 year parts and labour guarantee.

"There are so many options to use taps as a key part of your bathroom styling, so take your time to consider what works best for you."

Brought to you exclusively by our
TAPS SPECIALISTS

Take time for our *Taps*

*Taps are the most used item in a bathroom so it's important they are durable as well as stylish, to complement any design theme for your bathroom. Our range provides both and is backed by a 10-year guarantee.**

Black & white alternative to chrome

Although chrome taps will always look good, the current trend is for bolder alternatives such as industrial style black. For a co-ordinated or contrasting look, see our complementary baths, shower towers and radiators.

*Excludes rings and seals. 3 years on valves. 10 years on body and finish.

Hidden quality

Taps in our Premium Cartridge range are fitted with a longer-lasting ceramic cartridge and provide a more comfortable and ultra-smooth feel.

Get a soft spa-like water feel

A special aerator on our Pisa tap creates a beautifully textured spray pattern which feels soft to touch with a featherlight flow when washing your hands.

"Using decorative lighting as a styling accessory will help move your bathroom design beyond functional into something desirable."

Brought to you exclusively by our
BATHROOM SPECIALISTS

Finishing *Touches*

With our range of accessories, from feature radiators to underfloor heating; from simple mirrors to extravagant lighting; you can easily add personality to your bathroom, whether it's flair and panache, or minimalist chic.

Adding warmth with style

A warm bathroom creates a cosy, relaxed space and now, with our latest range of radiators, you can add warmth whilst adding a design feature. Or, if you prefer, with underfloor heating you can warm the whole room and free up wall space.

Practical never looked so good

Our range of mirrors have beautiful designs and also give you some handy practical solutions, such as providing softer ambient lighting for night use, or even an option to play music through built-in Bluetooth speakers.

Plan your lighting

Lighting is one of the most important elements of your bathroom, but is often an afterthought. Consider whether you want ambient lighting, task lighting or decorative lighting and include these at the planning stage.

Enjoy dry, warm towels and heat your room too with our stylish radiators.

Whatever the size, whatever the style, we have a solution for you.

- Designed for use with central heating systems or via electricity with the option of an element kit, they make an impact in your bathroom.
- Tested to EN442 standard guarantees the finest quality.
- Look out for the symbols below on the following pages; they will help you choose the best radiator to suit you.

CH

Central Heating

The benefit of this type of installation is that it is economical to run when the central heating is on. Suitable for use with indirect central heating systems (your plumber/installer will be able to advise the type of system you have). The radiator is fitted to your central heating system and works alongside your existing radiators.

E

Electric

The benefit of this type of installation is that the radiator can be installed almost anywhere and does not require any pipework. It has the added versatility of being able to be turned on and off whenever required, regardless of whether or not the rest of your central heating is on. An electrical element kit (see page 265) with a fused spur is required and wired to your electricity supply. The electrical element is screwed directly into the radiator and heats the water.

DF

Dual Fuel

The best of both worlds! This type of installation is plumbed with indirect central heating systems and or your electrical supply. This guarantees the low cost of a central heating system during the winter whilst ensuring the versatility of being switched on and off independently during the summer months. Central heating, electric or both - the choice is yours!

Underfloor Heating Warmup

For a more minimalist look, keep warm and discover the luxury of stepping onto a cosy warm floor with undertile heating, which has fast become affordable and easy to install. And now with the 4iE Smart Wi Fi thermostat you can use smartphone control to ensure your home is always at the temperature you want, just as you arrive, and using more efficient temperatures when you're away.

CH

Why Aluminium?

Performance
Aluminium conducts heat five times faster than steel, making it the perfect material for radiators.

Environment
Aluminium is an extremely eco-friendly material. It can be recycled endlessly because reprocessing doesn't damage its structure. It is also the most cost-effective metal to recycle.

Lifecycle
Aluminium doesn't rust so we give a 25 year guarantee against leakage.

For dimensions and additional information please see technical specifications. For our symbol guide please see page 259.

Undertile Heating

If you're looking for the ultimate luxury in bathroom heating, then you need look no further than our range of Warmup floor heating systems.

The process is simple, there is no need to dig up your old floor. Select your heating system, decide how much you need, and choose your thermostat. Three simple steps to affordable luxury. Warmup floor heating is specifically designed for use under tiles and natural stone.

WARMUP STICKYMAT

The Warmup StickyMat consists of a thin loose wire evenly spaced and taped to sturdy glassfibre mesh with pressure sensitive adhesive. It allows for the fastest and most secure installation of electric underfloor heating. Simply roll out a length, cut, flip and stick down the mesh until the floor area is covered. It is perfect for evenly heating large or regular-shaped rooms.

150 watt undertile sticky heating mat 1m²	DIAC0022	**£135**
150 watt undertile sticky heating mat 2m²	DIAC0024	**£195**
150 watt undertile sticky heating mat 3m²	DIAC0026	**£270**
150 watt undertile sticky heating mat 4m²	DIAC0028	**£340**

SAFETY Net™
Installation-Guarantee

WARMUP LOOSE WIRE SYSTEM

The Warmup Loose Wire System uses an ultra-thin, dual-core heating wire that is flexible, easy to install and will not raise floor levels. This system is quick to install and has a single connection lead for fewer steps. It offers flexibility and is ideal for precise installation in irregular shaped areas.

Dual wire undertile heater 300 watt - 1.5 to 2.4m²	DIUH0002	**£170**
Dual wire undertile heater 400 watt - 2.5 to 3.4m²	DIUH0004	**£200**
Dual wire undertile heater 600 watt - 3.5 to 4.4m²	DIUH0006	**£285**
Dual wire undertile heater 800 watt - 4.5 to 5.9m²	DIUH0008	**£370**

4IE SMART WI-FI THERMOSTAT

- Bright Porcelain DIAC0036 **£250**
- Onyx Black DIAC0034 **£250**

The 4iE learns how homeowners use their heating and the unique way their house reacts. It then automatically suggests ways to save energy, suggesting what temperature should be set when you are not at home and when you can turn the heating off early. The 4iE offers important advantages to the homeowner and trade professional. Use your smartphone, tablet or computer to control your heating.

TEMPO DIGITAL PROGRAMMABLE THERMOSTAT

(for electric and hydronic underfloor heating up to 16A)

- Porcelain White DIAC0030 **£150**
- Piano Black DIAC0032 **£150**

Enables end users to choose the time as easily as they would with a watch or clock and quickly set their programs – heat on when they want it and off when they don't need it. It helps avoid wasting energy and achieves savings on utility bills.

3IE ENERGY-MONITOR THERMOSTAT

(for electric and hydronic underfloor heating up to 16A)

- Classic Cream DIUH0010 **£200**
- Piano Black DIUH0012 **£200**

The world's first fully interactive, touch technology, energy-monitor thermostat features an easy-to-use interface, eliminating complicated instruction manuals. The display shows recorded energy consumption usage, so that users know the exact underfloor heating costs. Up to 10 programmable periods can be set each day to maximise energy efficiency.

Warmup

All Warmup thermostats come with a 3 year warranty with the option to upgrade to a lifetime warranty, visit www.warmup.co.uk for more details.

Shower water systems

There are a few different types of water systems in homes in the UK. We can usually make some assumptions about the sort of water pressure each will give.

GRAVITY FED SYSTEM

This is usually a tank in the loft space or inside an airing cupboard. A basic guide to establish how much pressure it will deliver is how high the tank is above the tap or shower. If the tank is 2 metres above the level of the tap or shower, the water pressure will be 0.2 bar. If it is 5 metres, the water pressure will be 0.5 bar. Generally this type of system is low pressure however you can increase the pressure by installing a pump. It is recommended to seek advice from a qualified engineer or manufacturer before choosing your pump as these vary in performance.

COMBINATION BOILERS

These are high pressure systems and are usually set to operate between 0.8 to 1.5 bar. Minimum and maximum pressure can be checked with the manufacturer however most boilers have a gauge to show what pressure it is operating at. Combination boilers have an integrated pump so if the water pressure is too low for your required application, adding another pump can damage the boiler.

SEALED/UNVENTED SYSTEMS

These are modern systems. If you have a hot water tank but you don't have a cold water tank (cistern) in your loft or garage, this is an unvented high pressure system. They are quite uncommon as they are more expensive however they can usually deliver around 3.0 bar of water pressure.

Terms and conditions

Your new bathroom products have been designed and manufactured to high standards and all come with a reassuring manufacturers guarantee. Guarantees apply to manufacturing defects and do not apply to accidental damage, wear and tear or any item or component rendered defective by unsatisfactory planning, faulty installation, improper or negligent use or damage resulting from failure to maintain the product in accordance with the customer care instructions. Guarantees do not cover any product that has been modified or altered in any way.

Guarantees do not cover any product that is installed with a fault that would have been clearly evident before installation. In the interest of continuing design development and product improvement, we reserve the right to amend or adjust specifications at any time. Where an identical product is no longer available we will supply the nearest equivalent from our current range. Guarantees are for the original purchaser of the product, they may not be transferred to a subsequent purchaser of the premises in which the product is initially installed.

THESE GUARANTEES DO NOT AFFECT YOUR STATUTORY RIGHTS.
