ITALIAN CRAFTED KITCHENS

Since 1987, First Impressions have been designing and distributing Italian kitchens of real distinction. Now over 30 years later, we are one of the UK's leading suppliers of premium kitchen doors, handles and accessories.

The Nova range provides the latest and most innovative contemporary kitchen finishes available. Our range of colours, textures and accessories will ensure you get a truly individual kitchen that's right for you.

Backed by an extensive expert team of independent retailers that are committed to delivering the best possible service to you, why not make First Impressions your first choice for kitchens.

NOVA

DESIGN

We believe that the enjoyability and creativity of the design process lends itself to the quality of the final product. Our vast but carefully chosen collection of textures, colours and finishing touches will ensure that the journey to your perfect kitchen is a memorable and unique experience.

#1

GRAPHITE +BRASS

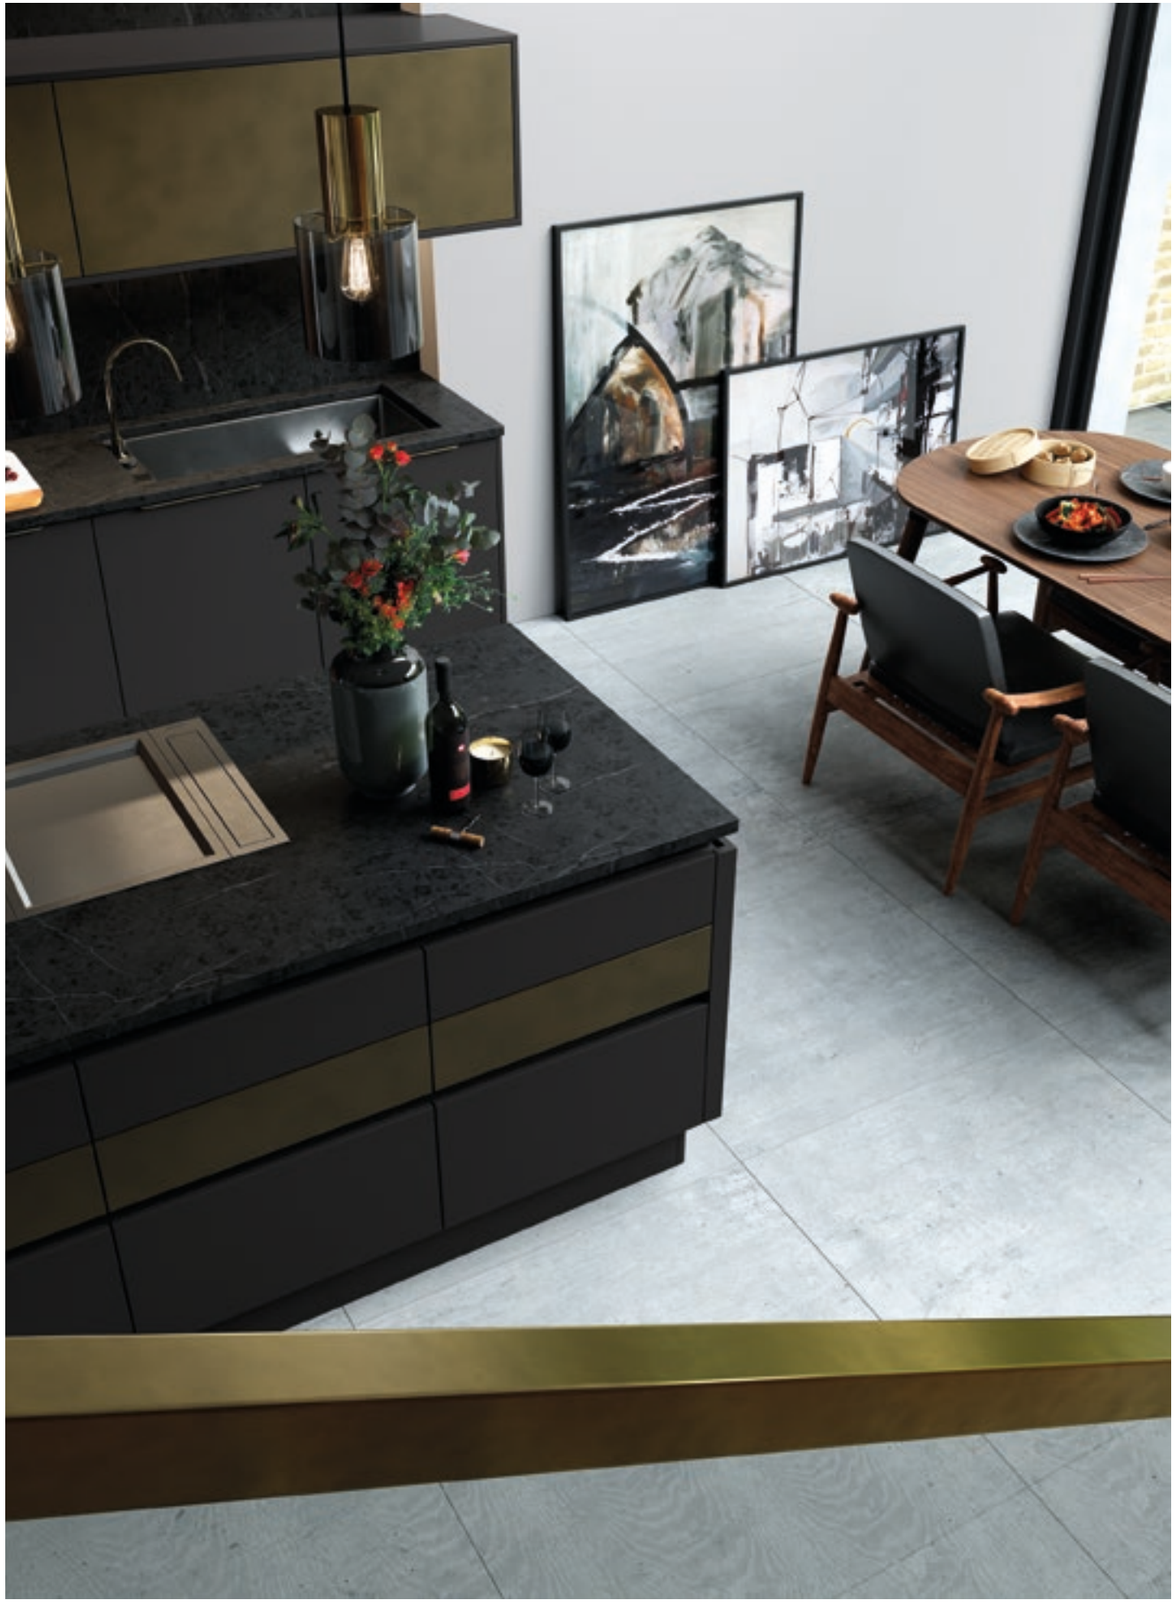

A striking combination of Oak Veneer, Graphite and Foundry Tarnished Brass result in a fusion of warmth, depth and tactility.

Attracting and drawing the eye through the kitchen, new zones have been marked with distinctly different textures.

Demonstrating the subtle creative elements in this design, brass Edge handles have been used in conjunction with a Black matt handle-less system.

#2

LAVA+BRASS

An elegant blend of Industrial Laminate Lava and Foundry Tarnished Brass forms an understated yet refined space.

NOVA

QUALITY

Good design needs to be many things. As well as being beautiful and functional, your new kitchen should be highly durable, designed to withstand the stresses of everyday life for many years to come.

By incorporating materials that are resistant to scratching and moisture ingress, every First Impressions kitchen is built to last.

#3

SAVANNA +CHARCOAL

Pictured here in gloss Savanna and Foundry Charcoal, this is a warm and practical family kitchen.

With its intriguing texture and distinctive looks, this feature larder/oven housing unit in Foundry Charcoal proudly commands its place as the centre of attention.

NOVA

STYLE

Your home is a brilliant collection of designs, decor and furnishings that reflect your style and personality. Your modern kitchen should be no different. Our cutting edge designs can be seamlessly mixed and personalised to create a kitchen that integrates beautifully with your home.

Featured tap: Brizo Litze™ Smarttouch® articulating faucet with knurled handle (shown in Luxe Gold) www.brizo.com

#4

PARADISE
BLUE+BLACK STEEL

For a confident statement piece that fuses modern door styles and traditional design, the Cosdon and Torberry ranges demonstrate great versatility.

With its unique patterning, Foundry Black Steel adds visual depth, which acts as the kitchen foundation. This allows the rich and bold Torberry door style in the Paradise Blue to be the main focal point of the design.

Brass t-bar handles and other lustre accessories further add to the intrigue of this kitchen.

NOVA

TAILORED

Our bespoke service provides flexibility and the opportunity to create a truly individual kitchen scheme. From made to measure to custom painting, our service is here to help transform your ideas into a real life kitchen.

#5

WHITE +WINTER TEAL

Reflecting Scandinavian influences, the kitchen cabinetry is clean lined and minimal. White painted matt doors amplify the feeling of light and space, while the island in Winter Teal adds a modest pop of colour.

Decorative and practical, the oak shelving adds a visual interest while keeping convenient items within reach.

Nestled within the White cabinets, the painted handle-less rail profiles in Winter Teal contrast with the White, echoing the colour used on the island.

NOVA

INNOVATION

Advances in manufacturing processes have led to exciting new tactile paint finishes rarely seen before in the kitchen. Our latest 'foundry' paints push the creative and aesthetic boundaries, encouraging us to rethink kitchen design.

#6

PINK CHAMPAGNE +BLACK STEEL

This luxurious design contrasts original period features with modern materials resulting in a striking effect.

Pocket doors, shown here in Foundry Black Steel, provide ease of accessibility without taking up extra space.

Encapsulated in Dekton Keyla worktop, the Metallic Pink Champagne introduces an alluring charm to the kitchen island.

NOVA

DETAIL

Our kitchens these days are more multifunctional than ever before. Somewhat less of a kitchen and more of a living space. Considering the demands from your kitchen will ensure that there is a place for everything.

#7

LIGHT GREY +BLACK STEEL

Throughout this kitchen a cool monochrome colour scheme has been used. The kitchen floor, Ecora Oak Tennyson, provides a warm undertone, while the units are a mix of matt Light Grey and Foundry Black Steel, topped with Silestone Snowy Ibiza.

Brushed Anthracite Edge handles were the natural choice for this kitchen. Simple in design and perfectly formed, they add further interest to this contemporary space.

Neatly positioned, the alluring painted texture of Foundry Black Steel adds much interest to the island's design.

NOVA

CRAFTMANSHIP

Crafted in Italy by Europe's leading manufacturers, The Nova range benefits from modern techniques combined with generations of expertise. Superior paint finishes and durable, long-lasting materials ensure that your kitchen will look, and stay, stunning.

#8

MID GREY, RUST+COPPER

Contrasting tones, such as the gloss Mid Grey and the Industrial Laminate Rust, team together to create a stunning, modern kitchen.

Add warmth and character to the kitchen by implementing eye-catching details such as Copper glazed frames.

Finishing touches such as the bridge handles in Black matt help add distinction and style to this kitchen.

#9

COPPER +GRAPHITE

Emphasise the exquisite detail of the Foundry Tarnished Copper with the creative use of bespoke Graphite framing.

CREATING A COLOUR SCHEME

Layout and lighting
The size of your room and the lighting available will dictate which colours will work best within it. For example, using dark shades in a small room that only has limited lighting (particularly from natural sources) will give a gloomy impression overall.

Using lighter tones in areas where there are wall cabinets will add a sense of contrast while helping to give the room a brighter feeling. In general, larger, well-lit rooms give the greatest scope when it comes to experimenting with colour.

Neutral colours
Neutrals are an excellent choice where space is at a premium as they can make a room seem lighter and larger. Using a single shade throughout or mixing similar tones together can create a clean and classic look.

Contrasting colours
Neutral shades can also be used to offset contrasting shades, and using hues that are opposite in colour or tone can help divide a space into different areas or to create an interesting focal point.

Bold colours
Bringing bold colours into a room can help add impact and energy. Strong tones are a good way to highlight features such as shelving, islands and freestanding units. However, care is needed to ensure that the bold shades add punch to the overall scheme, rather than dominate it.

Try a sample
As colours can look different depending on lighting conditions, we highly recommend you request a sample door before finalising your choice and ordering your kitchen.

Choosing the right colour is all down to your personal taste, and selecting a shade from our bespoke range will help you create an altogether more unique and individual space.

BESPOKE COLOUR OPTIONS

In addition to a range of stock colour finishes, many of our fabulous designs are available in a choice of bespoke colours to bring a more personalised feel to your new kitchen and better reflect your particular tastes.
